Objective

As a UI/UX designer and developer with over 4.5+ years of experience in the IT field, I am committed to delivering excellence. My track record includes successfully managing prestigious projects of significant scale, adhering to tight schedules, and providing senior-level contributions in product design, project management, application development, and business analysis. I aspire to join an esteemed organization in the IT sector, leveraging my quick learning abilities, strong work ethic, and versatility as a high-energy technocrat.

Experience

Infosys Ltd | Technology Analyst | Hyderabad   **05/2022 - Present**

- **Current Project: Blue Shield California**

  Development of an Angular project as a UX Solution Designer.

  Responsible for creating reusable components (pagination, stepper, etc.) using SaaS, Angular, and TypeScript for BSC's UI library package.

  Enhancing the UI of BSC's global web applications by integrating the BSC UI library.

  Developed a POC to integrate Figma with Angular.

  Assisting team members with UX-related projects.

- **DNV's Product ECOMP (Oct 2023 - Dec 2023)**

  Redesigned the user interface and added new features.

  Created UI designs and prototypes for all screens and user flows.

  Collaborated with the product owner team to discuss requirements and business aspects.

  Presented final prototypes and designs to the product manager and leads.

  Provided feedback and guidance on UI components to internal software teams (iOS, Android, and web).

  Conducted pixel-to-pixel testing for all flows and screens in the final UI.

- **Cowrks Mobile App and Admin Panels (May 2022 - Sep 2023)**

  Redesigned the existing mobile app and admin panels, improving the user interface and adding new features.

  Led a UX team of three members, managing design approvals and client communications.

  Engaged in daily calls and meetings with product owners and the client's marketing team to discuss requirements and business aspects.

  Presented final prototypes and designs to stakeholders.

  Provided feedback and guidance on UI components to internal software teams (iOS, Android, and web).

  Conducted pixel-to-pixel testing for all flows and screens in the final UI.

Evnorg Software Pvt. Ltd | Front-end Developer | Chhattisgarh   **02/2021 – 05/2022**

- **Website and Mobile Application Development**
  Developed websites and mobile applications using React.js and React Native. Gathered and analyzed client requirements for front-end development projects. Secured final UI design approvals from clients.
- **Digital Marketing,** managed digital marketing for three clients using Facebook Business and Creator Studio.
- **RSR Telecommunications,** Managed the project from start to finish, developed using React.js.
- **Ninjakraft,** developed an e-commerce mobile and web application using React.js and React Native. Maintained frequent communication with the client and their team. Finalized UI/UX design and developed the UI components. Provided regular project updates to the client.
- **Civil Guruji BBS,** developed a Bar Bending Schedule calculator for civil engineering calculations using React Native. Simplified complex calculations for building material and planning. Prepared UI design and developed the front-end and core calculation components. Enabled users to easily calculate and print PDFs.

Vicspan Software Pvt. Ltd. | Senior Graphic and UI/UX Designer | Chhattisgarh   **06/2019 – 08/2020**

- **Designed UI for many website and mobile applications.**
- **Created banners, social media posters and posts.**

Accomplishments
_____

- Successfully conducted pixel-to-pixel testing of all flows, ensuring final delivery met high-quality standards.
- Awarded the Insta Award-2023 at Infosys for best performance in the project.
- Efficiently handled critical situations, obtaining design approvals within a day.
- Led and managed a UX team, providing guidance and support.
- Provided requirements and insights for numerous upcoming UX projects at Infosys.
- Developed complex, logic-based Angular components, demonstrating technical proficiency and problem-solving skills.

Additional information
_____

- **Strong Communication Skills**: I possess excellent communication skills, enabling effective collaboration with clients, stakeholders, and team members. My ability to articulate design concepts and technical details ensures smooth project execution and client satisfaction.
- **Adaptability and Quick Learning:** I am highly adaptable and a quick learner, allowing me to stay updated with the latest industry trends and technologies. This adaptability helps me to efficiently tackle new challenges and deliver innovative solutions.
- **Attention to Detail:** My meticulous attention to detail ensures that all aspects of the design and development process are thoroughly considered, resulting in high-quality and polished final products.
- **Team Leadership:** I have experience leading UX teams, providing guidance, and fostering a collaborative environment. My leadership skills help in driving projects to successful completion while maintaining a positive team dynamic.
- **Problem-Solving Abilities:** I excel in identifying and resolving design and development issues, ensuring that projects are completed efficiently and effectively. My problem-solving skills contribute to the overall success of the projects I work on.
- **Passion for User Experience:** My passion for creating exceptional user experiences drives me to continuously improve my skills and stay informed about the latest UX best practices. This dedication ensures that I deliver user-centric designs that meet and exceed client expectations.
- **Technical Proficiency:** In addition to my design skills, I have a strong technical background in frontend development, which allows me to bridge the gap between design and development seamlessly. This proficiency ensures that my designs are not only visually appealing but also technically feasible.
- **Commitment to Excellence:** I am committed to delivering excellence in all my projects, consistently striving to exceed expectations and deliver high-quality results. My dedication to excellence is reflected in my work and my professional approach.
